

SOLAR

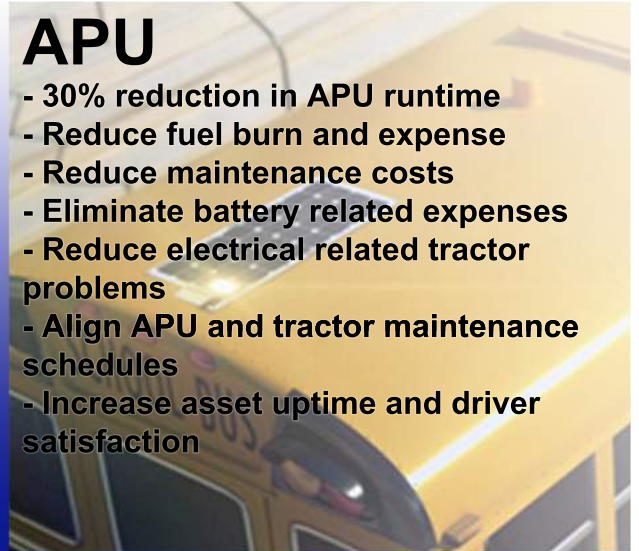

Refrigeration Unit

- Offset telematics and parasitic loads
- Increase battery life
- Greater uptime and asset utilization
- Fuel savings
- Reduced maintenance expense
- Reduce low battery alarms

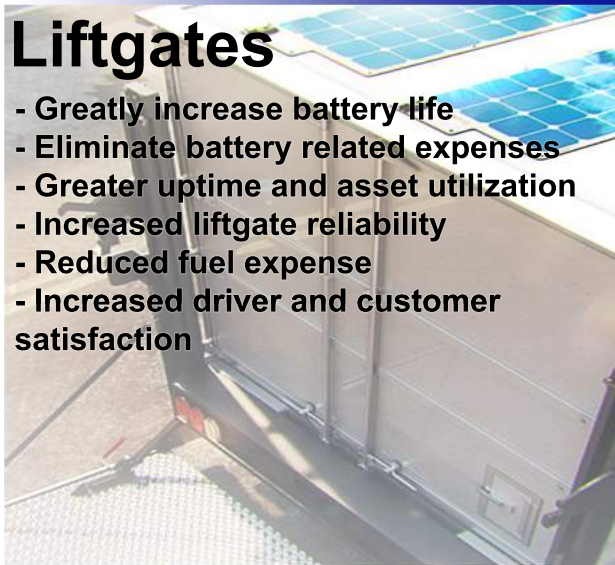

APU

- 30% reduction in APU runtime
- Reduce fuel burn and expense
- Reduce maintenance costs
- Eliminate battery related expenses
- Reduce electrical related tractor problems
- Align APU and tractor maintenance schedules
- Increase asset uptime and driver satisfaction

Liftgates

- Greatly increase battery life
- Eliminate battery related expenses
- Greater uptime and asset utilization
- Increased liftgate reliability
- Reduced fuel expense
- Increased driver and customer satisfaction

Heaters

- Maintain battery health during off-season
- Eliminate pre-season battery replacements
- Greater uptime and asset utilization

Other Applications:

ANYTHING WITH A BATTERY
